

CHARLO ATHLETICS FIND SUCCESS

District Meets and Softball Sweeps

By: Tejah Beeks

Student athletes of Charlo saw great success this weekend. The track team traveled to Big Sky on Friday and Saturday to compete in Districts. It comes as no surprise that the boys had some great performances and earned themselves hardware. Overall the boys scored a big total of 169 points over Superior, Hot Springs, Noxon, and St. Regis to take first place at districts. The girls did the best they could

with the low number of female athletes going out for track. With 7 girls on the team, we still managed to rack up 65 points in total with a fourth place finish. To every track athlete that competed to the best of their abilities this weekend, great job! While the track team was participating in Districts, the girls on the MAC Softball team were working hard for a win over Eureka. This game happened to be senior day for solo Charlo Senior, Katelyn Young. Katelyn went 3 for

4 at the plate and even hit a home run to finish off her last game on her home field. MAC earned themselves an 8-0 win. Congratulations to all Charlo Athletes for working hard this weekend!

STUDENTS

NHS Blood Drive

By: Tucker Love

Wednesday afternoon the National Honors Society Ponderosa chapter of Charlo High School put on a blood drive. With help from the American Red Cross, Charlo students a part of the NHS chapter were able to make this blood drive a success. Throughout the day they were able to obtain twenty-six units of donor blood. The many volunteers who chose to donate blood impacted this drive the most. If it wasn't for them it would not have been possible. The American Red Cross and the National Honors Society really appreciate those who donate their blood. The Charlo High School National Honor Society tries to do at least two blood drives a year as a part of their effort as servant leaders to do some good in the world.

OPINION

Sports Banquets?

By: Aida "Big Head" Cote

Should we bring back Winter and Fall sports banquets? Last week, all students 6-12 attended an assembly in which letters and awards were given to this year's winter sports athletes. In previous years, a banquet was put on by parents of athletes to award them for their hard work. An assembly sure does get the job done, but is it really that rewarding for the student athletes in question? Due to COVID-19, these banquets were canceled and have never been reorganized. I'm positive older athletes miss these celebrations and younger ones wish they could attend one. The experience would surely be worth the trouble for our athletes, parents, and staff.

OPINION

Lunch Period

By: Aida "Big Head" Cote

If there was one thing I could change about the wonderful Charlo School it would be to have a longer lunch period. As I'm sure you're all aware, we students have a whopping 30 minutes to shovel down our lunch and move on to the second half of our day. Believe it or not, this isn't the most beneficial thing to students' physical and mental health. A longer lunch period brings on many advantages. Unsurprisingly, studies show that allowing students longer "brain breaks" can boost their motivation and improve their moods. The benefits seen from this greatly outweigh the disadvantages. To name another benefit, I'm sure our fantastic lunch staff will like a longer lunch period to prevent food waste. Imagine having enough time to eat your food, finish it, talk to your friends, and even have extra time! I'm sure both staff and students would benefit from a longer lunch break, so what's stopping us?
